

# Shimrit Breef Ziskand

## Full-Stack Software Developer

Ramat Gan, Israel | +972-52-652-5283 | [Linkedin](#) | [Github](#) | [shimrit021@gmail.com](mailto:shimrit021@gmail.com) | [My Personal Website](#)

I am a software developer with a unique blend of experience in software development, quality assurance (QA), and education. My development skills were honed at Qelos, while my meticulous attention to detail in QA was sharpened at Matrix, working on projects for a large financial institution. My experience as a Java Instructor has equipped me with the ability to guide and assist other developers

### Skills

- Languages: **Javascript, Typescript**, Java, HTML & CSS
- Frontend framework: **React.js, Vue.js**, Taliwindcss
- Backend: **Node.js, Express.js**
- Databases: MongoDB, Firebase, SQL
- CI/CD: Docker
- QA: QC system, E2E tests, STP (Software Test Plan), STD (Software Test Design)

### Experience

May 2023 - Present

#### Full Stack Developer - [Qelos](#)

- Responsible for delivering E2E features using Vue on the frontend side and NodeJS, Express, and Mongo on the backend side.
- Utilized tools including Docker

August 2018 - December 2022

#### Java Instructor - [Ecom School](#) (& Hofftman-Itai)

- Mentored 50 students in Java programming.
- Created and graded coding assignments, and presentations, and developed educational resources.

January 2015 - August 2018

#### QA Analyst - [Matrix](#)

- Performed E2E tests, utilized HP: Quality Center, wrote test cases, investigated bugs, and collaborated with the development team on fixes.
- Technologies Utilized: HT Quality Center, SQL.

## Education

January 2022 - December 2022

### **Full Stack Web Development Program** – [\*Triplet\*](#) & [\*Masterschool\*](#)

- Completed a year-long intensive program focused on developing full-stack web development skills, including HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB, Nginx, Bash, and Git.
- Acquired hands-on experience with various technologies and tools, gaining a solid foundation in full-stack web development.

2017

### **Backend Software Development Program (Java)** – *John Bryce*

- Six month course focused on OOP, Java, Design Patterns, SOLID, Spring Framework, REST, Hibernate, and test automation with Selenium.
- Taught design pattern class, later hired by Ecom Schools.

2015

### **QA Course** – *John Bryce*

- Six months, trained in planning and writing STP documents and designing test scenarios (STD).
- Utilized HP: Quality Center.
